ARLIGHT 

Vision and mission

Vision;

Is to be the leading partner for professional lighting solutions in Turkey, through exceptional product quality, the best service and continuous innovation for sustainability.

Our Mission;

To innovate and deliver professional lighting solutions in our region, with planet and people at the core of our strategies.

Our values

Sustainable

More sustainable solutions, both minimizing energy consumption and manufactured responsible

Human

Increasing human well-being, both recognizing peoples' preferences and enhancing environments

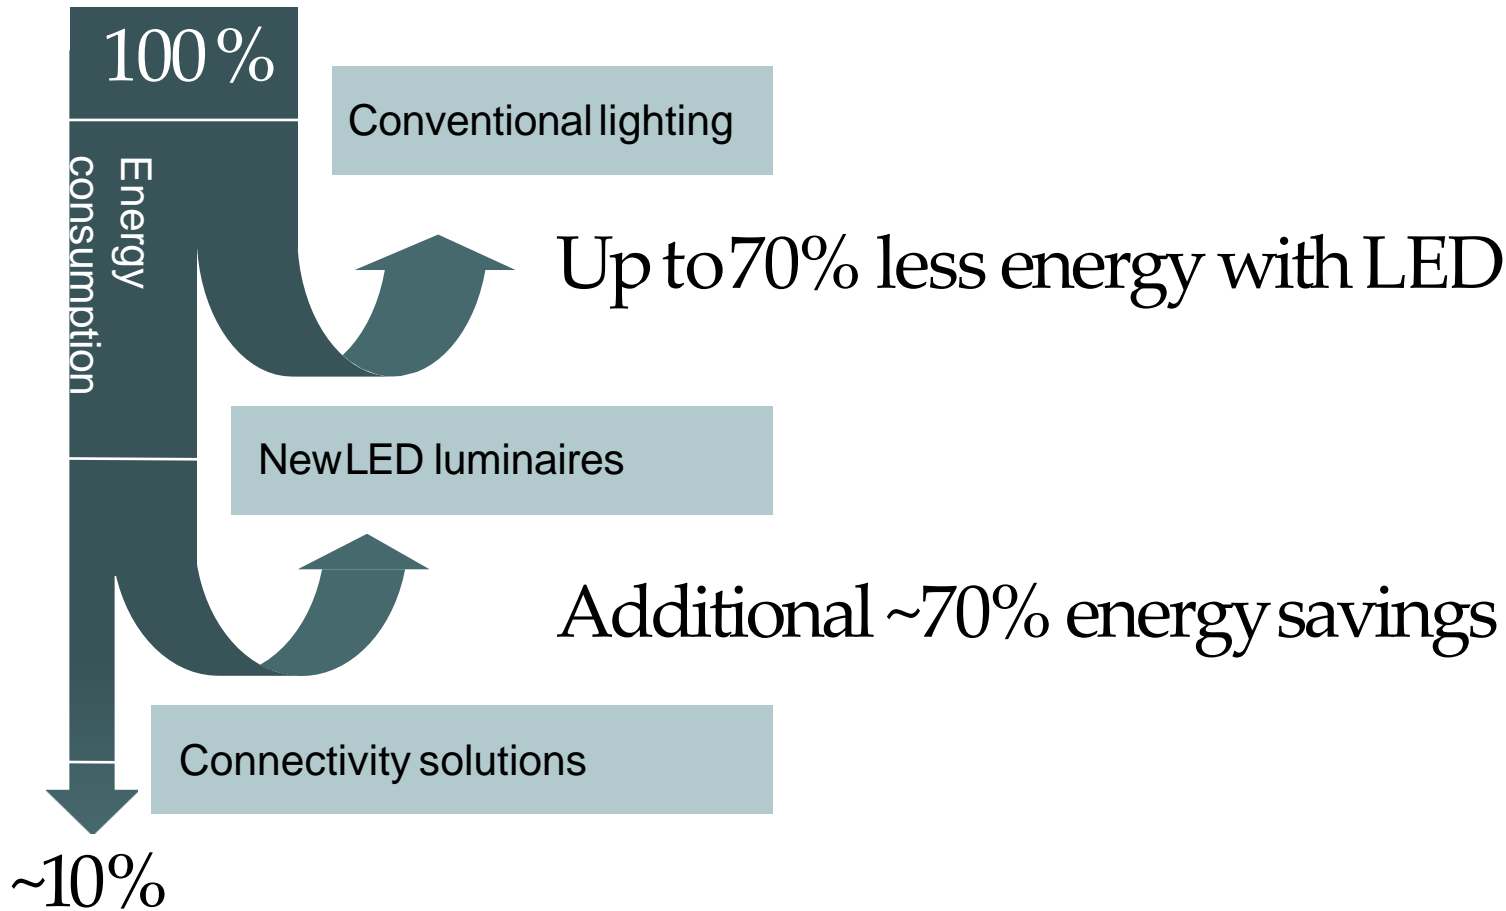

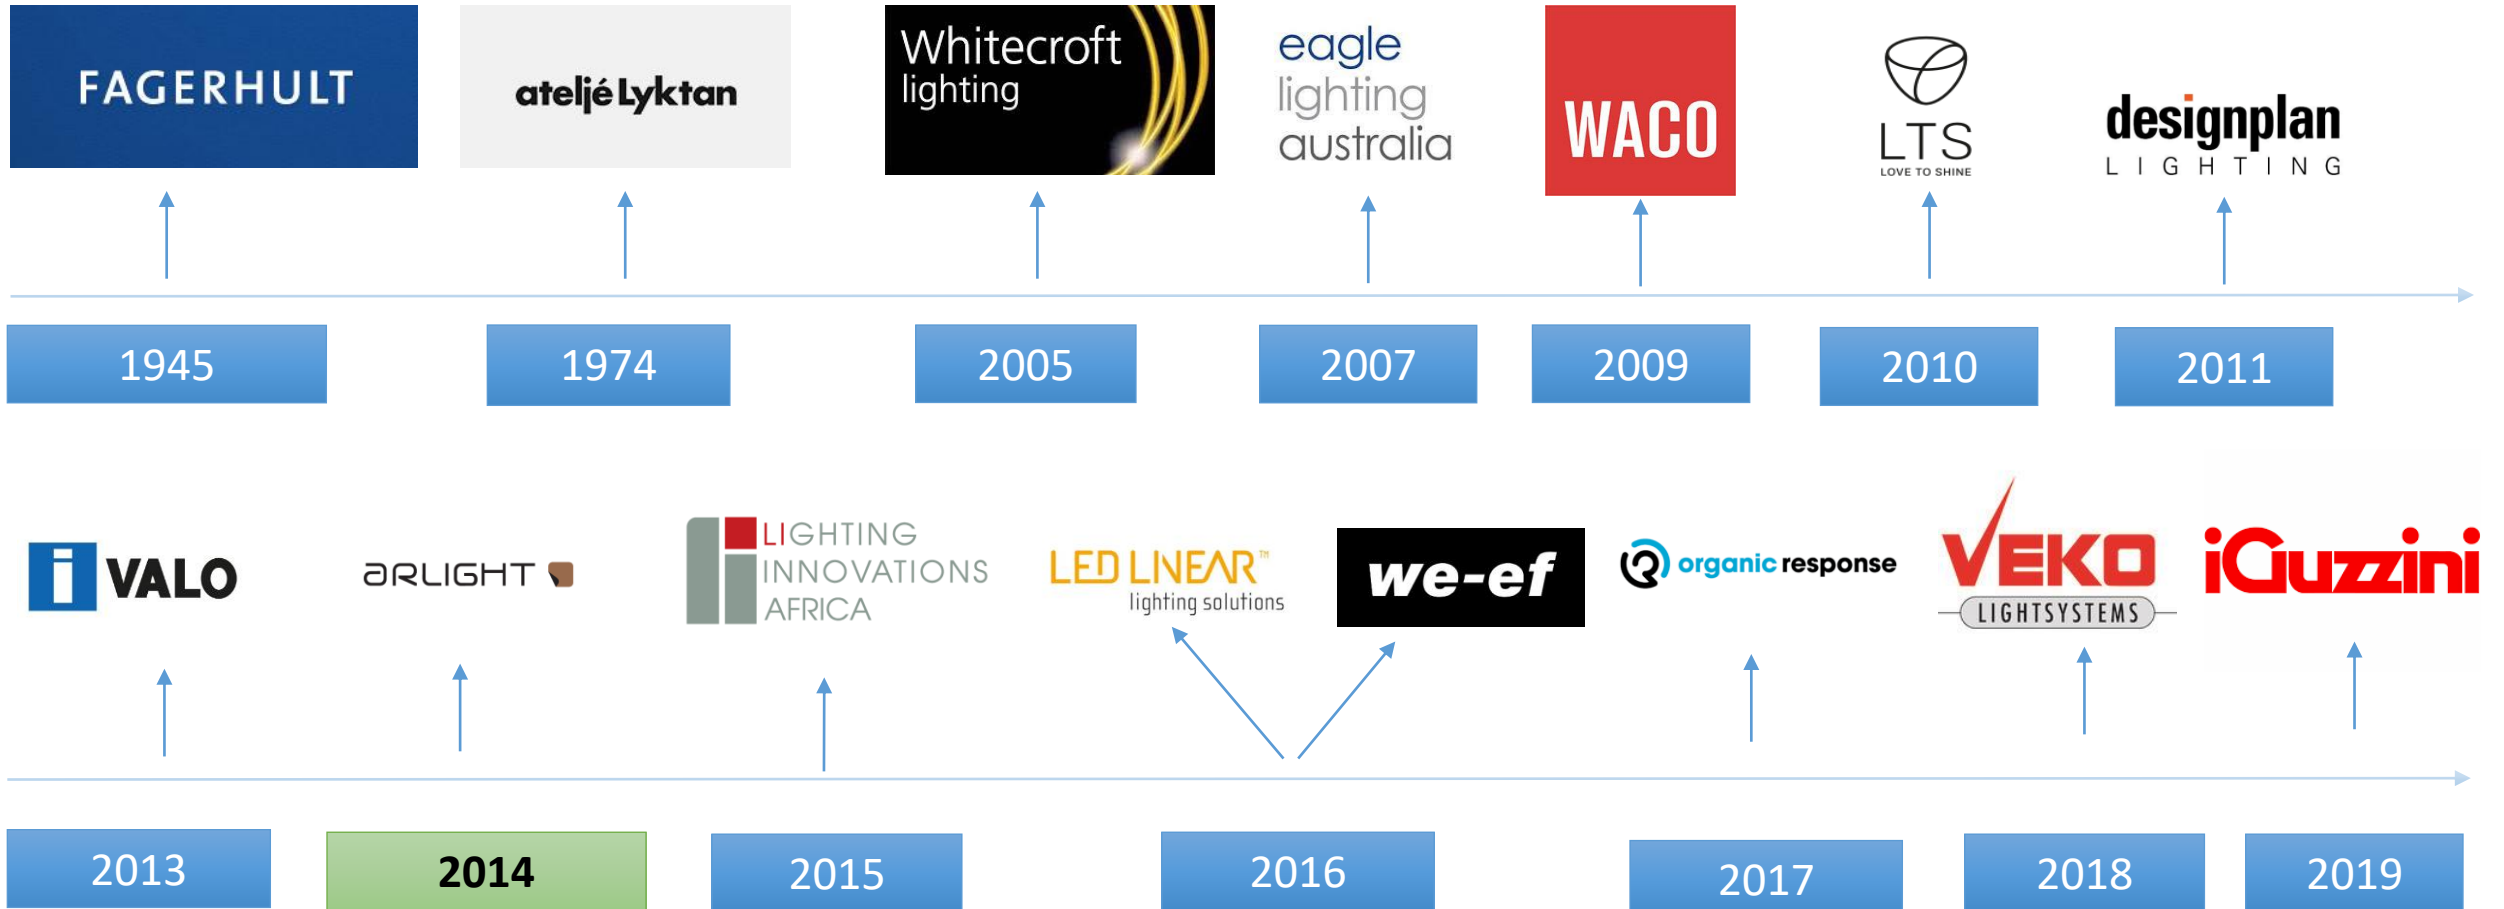

Smart

Lighting as integrated part of the emerging eco-systems for smart building and cities

Connectivity solutions brings additional savings to already efficient LED luminaries

Exported to over 60 countries until now

Let there be light was our motto in **1991** and the company was founded.

Highly experienced **180** employees with professional skills

Annual production capacity of **500.000** luminaires

10.000m² indoor production area in Sarayköy, Ankara.

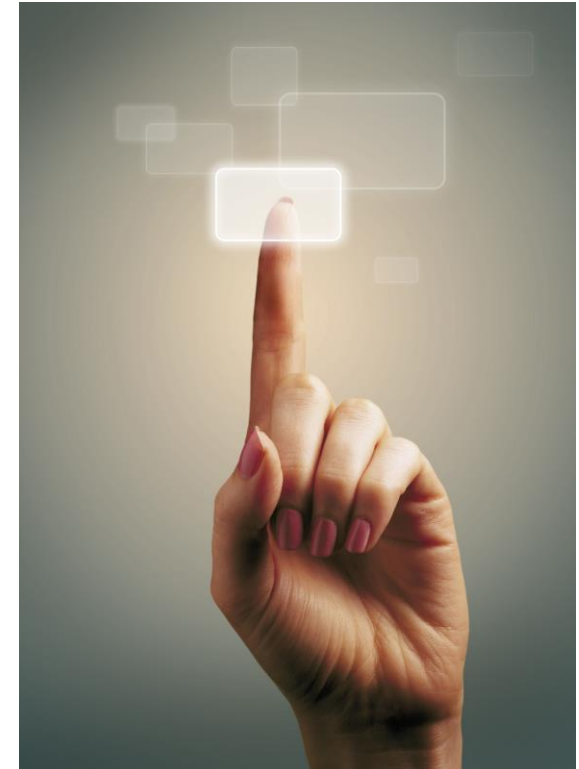

Arlight's
Istanbul Office
moved to
Nurol Tower

Why our customers are choosing Arlight as their lighting partner?

- 32 years of experience
- Dynamic team with high creativity
- Customer Oriented
- Wide range of high quality products
- Warranty period
- Accredited Laboratory
- Custom made solutions
- State of the Art Production Facilities
- Project support and concept design
- Fagerhult Group Synergy

HIGH CAPACITY, MODERN METAL PROCESSING LINE State of the art metal processing lines

PAINTING LINES

For main production, automatic line with high capacity, for small amount of orders and prototypelime manual line with low capacity.

ASSEMBLY LINES

Manuel and automated assembly lines with testing stations and own SMT line

CERTIFICATION & STANDARDS

-  ISO 9001:2015
-  ISO 14001:2015
-  ISO 45001:2018
-  TS EN 60598-2-1
-  TS EN 60598-2-2
-  TS EN 60598-2-3
-  TS EN 60598-2-5
-  EAC
-  ATEX**
-  ENEC**

** Each product does not have ATEX and ENEC certificates

ARLIGHT creates difference with its accredited lighting laboratory

It is the one of the foremost laboratories in Turkey where important experiments are carried out. Tests and measurements we are performing:

- ✓ Goniophotometric
- ✓ Photometric and Spectroradiometric
- ✓ Electrical Safety
- ✓ Electromagnetic Compability
- ✓ IP & IK
- ✓ Mechanical Resistance
- ✓ Thermal
- ✓ Function & Performance

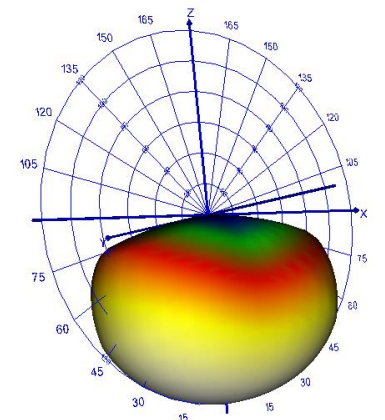

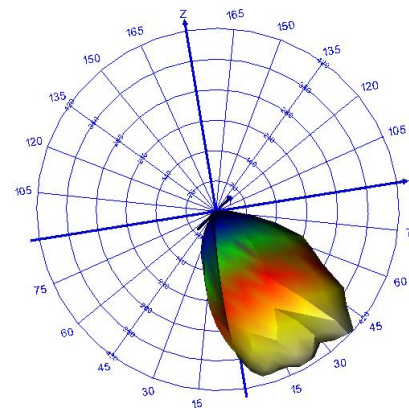

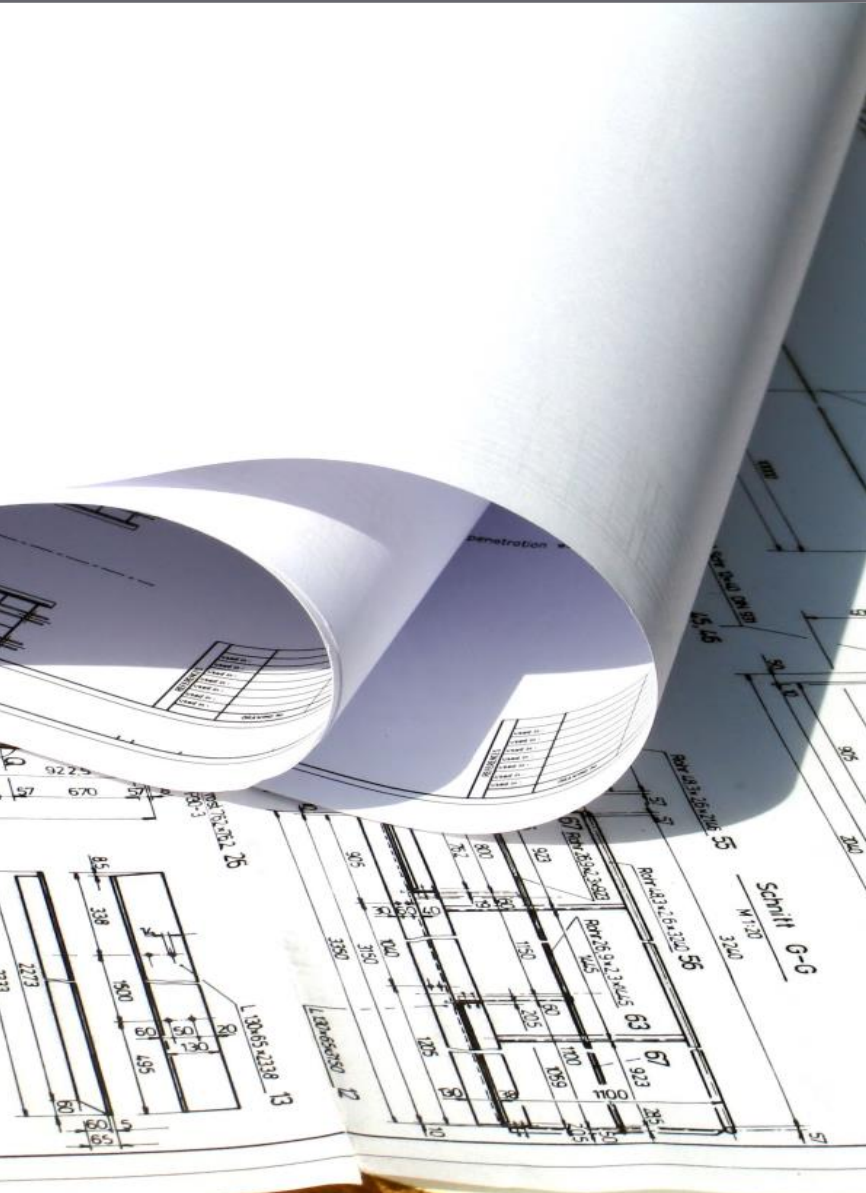

Premium Partner

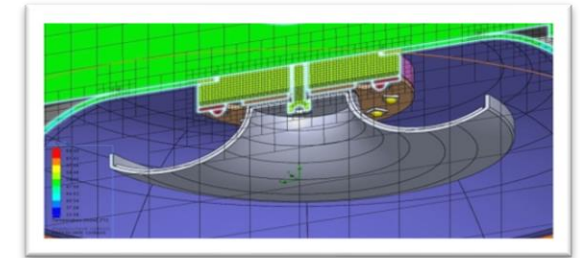

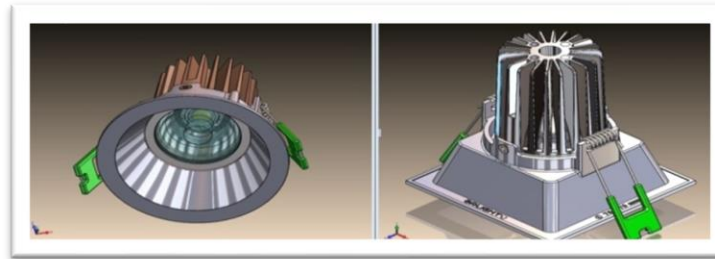

- We believe that light, applied in the right place in the right amount, can bring a positive impact on human life
- From a full concept proposal, we deliver innovative energy efficient solutions which helps to simplify daily routines.
- Lighting calculations, project service are provided by Auto Cad drawings
- DIALux, DIALux Evo,

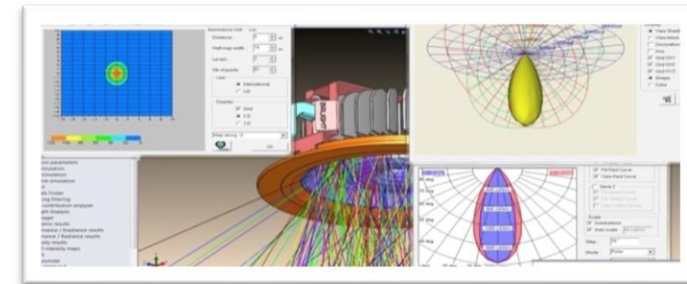

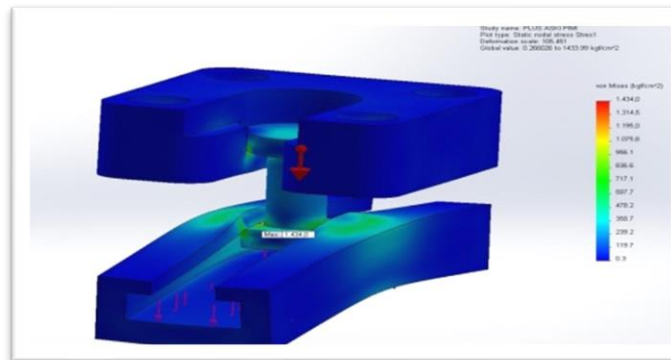

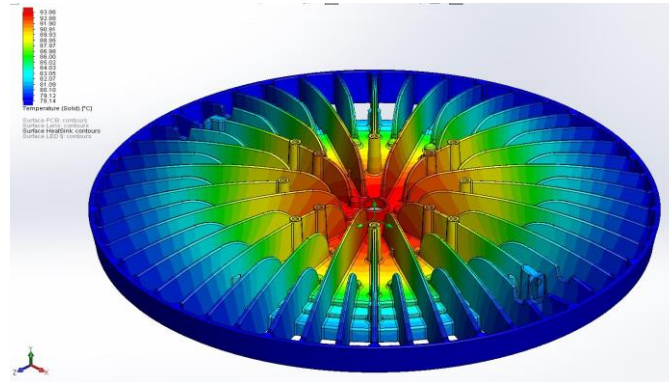

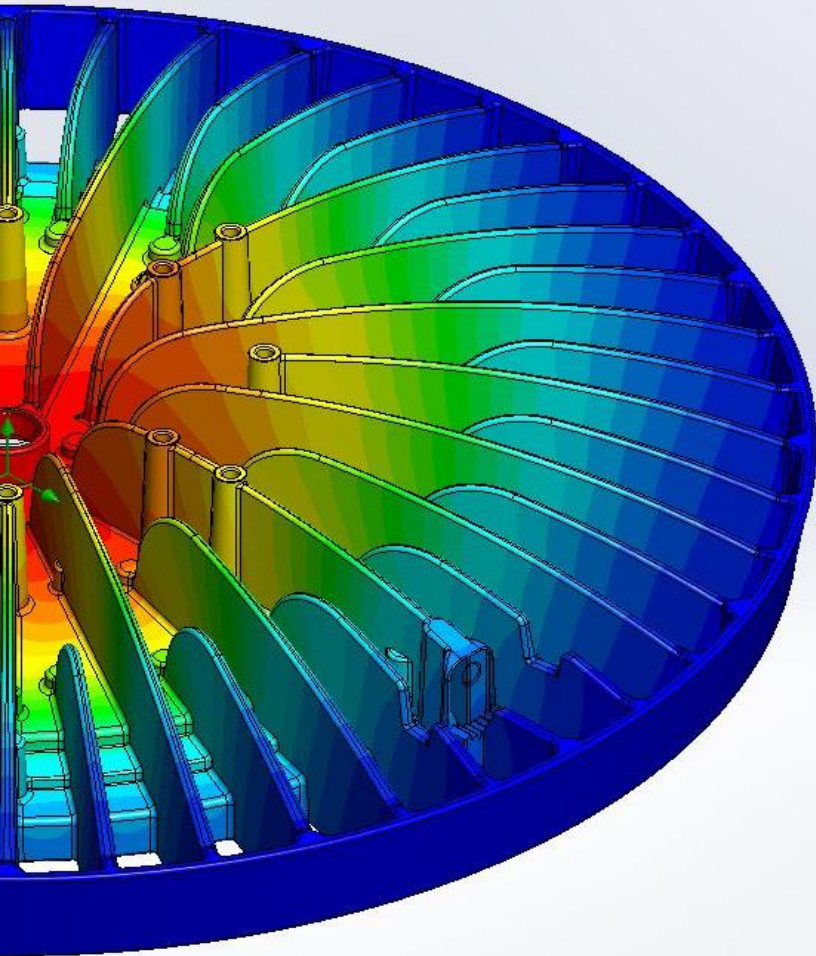

Luminaire designs are made by **Solidworks** 3D CAD software in mechanical design department. All of the products ,which we have designed in-house, and our own structure are patented.

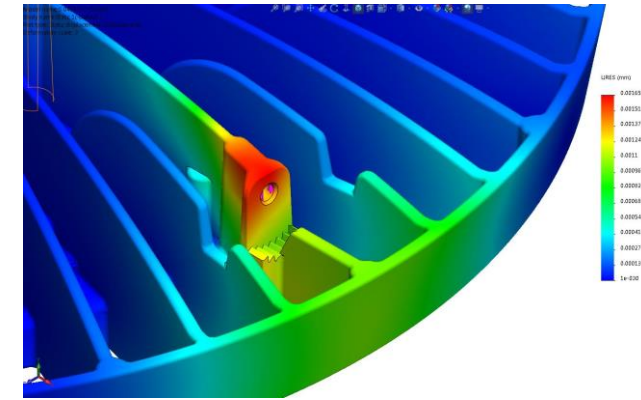

Optical analyses are conducted at the design stage, using OptisWorks software at first. Thermal analyses are done by using Solidworks Flow Simulation.

Installation instructions prepared by the Technical Department then proceeded to the production phase.

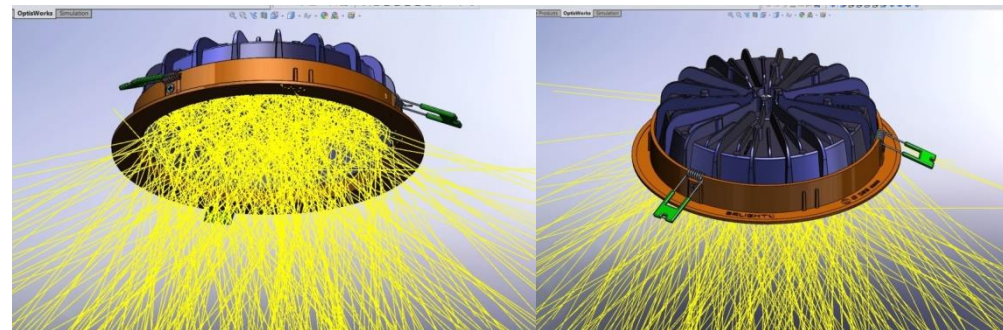

Thermal Design & Modelling

Mechanical Design & Modelling

Optical Design & Modelling

- **Shipping Services**

Providing delivery services with global solution partners.
(UPS, TNT, DHL, MSC, MAERSK etc)

MAERSK

- **Warranty;**

We offer **5** years warranty for all of our products except lighting bulbs.
