

Grain Moisture Meter

GM-T36G

Features

- It is portable, compact, easy to use and the moisture measurement readings are instant.
- Digital display with back light gives exact and clearly reading although you stay at the somber conditions.
- It will save time and expense by monitoring dryness and helps to prevent deterioration & decay caused by moisture whilst in storage, therefore processing will be more convenient and efficient.
- Auto power off after 5 minutes from last operation.
- Data hold function. Low battery alert.
- Can testing 36 kinds of grains by different reference codes.

Specification

Model	GM-T36G
Display	4 digital LCD
Measuring range	3-80%(general)
	5-30%(special)
Operating conditions	
Temperature	0-60°C
Humidity	<90%RH
Resolution	0.1
Accuracy	± 0.5(main moisture range)
Code	37 kinds
Operation	Electrical Resistance Method, Automatic temperature Compensation
Power supplybattery	4x1.5 AAA size (UM-4) battery
Dimensions	
main unit	150×65×24mm
sensor	370x45x22mm
Weight	265g
